

Big Bird Transportation Inc

Notice of Requirement to Comply with California Air Resources Board's (ARB)
Transport Refrigeration Unit (TRU or reefer)
Airborne Toxic Control Measure (ATCM)

Big Bird Transportation Inc requires all carriers to comply with the regulations of the California Air Resources Board's Transportation Refrigeration Unit Airborne Toxic Control Measure.

As a carrier supplying transportation services to **Big Bird Transportation Inc**, you must certify that only reefers which comply with ARB's TRU ATCM in-use performance standards will be dispatched to **Big Bird Transportation Inc** for loading or unloading into or out of the state of California.

If you are a California based carrier you are required to be registered on the ARBER system. If you are based outside of California, and have not registered with the ARBER system, we strongly recommend that you do so in order to avoid any potential rejections and/or delays in loading or unloading.

CARRIER shall be liable for and agrees to indemnify **Big Bird Transportation Inc** Customer(s) for any penalties, or any other liabilities, imposed upon **Big Bird Transportation Inc** Customers as a result of **CARRIER's** use of equipment found to be noncompliant with any laws, statutes, regulations or requirements, including but not limited to those set forth above. Upon Big Bird Transportation Inc's request, **CARRIER** shall provide proof of **CARRIER's** compliance with any such laws, statutes, regulations or requirements.

Please sign and return a copy of this letter certifying your organizations acceptance.
